

Radars Detektor > Bel 940 Radardetektor

## Bel 940 Radardetektor

Model : 313343

Bel 940 Radardetektor

Manufacturer : Beltronics

The radar detector Bel 940 with 10 international frequencies and 360 degrees laser detection. With the latest BEL 990 Europe and Middle East Software, just much cheaper. We think it is the best on and for the European market

Features:

- text in German, English, Spanish, Italian, French and Netherland
- After selecting one or radar frequencies switchable
- 10 international frequencies adjustable
- warnings by electronic voice, tone and text-display
- brightness adjustment
- demonstration mode (Alarm Behavior)
- 360 degree laser detection
- mute after the first alarm tones (on / off)
- Electronic voice (on / off)
- display (on / off)
- self-test (on / off)
- Tracking Protection (Shadow Technology)
- display brightness adjustable / switchable
- different acoustic and visual warnings, depending on the detected signal
- Digital Signal Processing
- Switchable highway, road and city
- volume control and mute switch
- complete installation materials for sun cover, dashboard and windshield mounting
- updateable (eg change of frequency)
- CE certified and German instructions

Technical Data

Laser sensitivity better than 1 microwatt per cm<sup>2</sup>

Operating temperature -20 to +70 C

Power supply 13.8 volts (12 volts direct current)

Radar antenna based on a Patented horn-antenna with integrated microstrip mixer

Technology: 10 International frequencies

Super Wideband Ka

Fundamental Mixer Technology (FMT)

Radar signal test (RSV)

Digital signal processing (DSP)

Laser signal detection (LSV)

Off-Axis Detection

Shadow Technology II

Total Tracking Laser Technology

Safety Warning System (SWS)

Frequencies

X-Band: 9.410 GHz

X-Band: 9.900 GHz

X-Band: 10.525 GHz

Ku-Band: 13.450 GHz

Radar Detektor > Bel 940 Radardetektor

## Bel 940 Radardetektor

K-Band: 24.050 GHz  
K-Band: 24.250 GHz  
Ka-Narrow band: 34.000 GHz  
Ka-Narrow band: 34.300 GHz  
Ka-Narrow band: 34.700 GHz  
Super wideband Ka: 33.4 to 36.0 GHz  
Dimensions approx 12x8x3 cm (LxWxH)  
Weight approx 220g

### Included Accessories

Adjustable, self-adhesive frame for the windshield  
Adjustable mount for dashboard and sunvisor  
Detachable cable (1.5 m) with plug for cigarette lighter  
Velcro for dashboard  
Spare fuse  
German manual

Operation illegal within Germany and maybe other countrys, please ask the lawyer you trust

**Price : 479,00EUR[incl. 19% Tax excl. Shipping]**
